Hello, I ordered a reference on 9/17 and I haven't received it yet. The reference is DEGRADATION OF HUMAN EPIDERMAL KERATIN BY FISH PEPSIN; Bjelland, S. Institute of Fisheries, University of Tromso, Tromso, Norway  
Arch Dermatol. Res 1988, 280(2) 119-123

Is there any information you can give me about when I might receive this reference? (I wouldn't normally ask, b/c I know all of you are so busy, but this case is due soon)

Thank you :)
